

Chilo Lock 34 Visitor Center and Museum Exhibits RFP

Addendum 1

- 1) **Are we wanting a price proposal?** – No. We are looking for a firm to take us from concept and design, to bidding, fabrication and installation. Shortlisted firms will be interviewed. We will then enter into price negotiation with the selected firm.
- 2) **Is there an overall budget for the project?** - No. While some exhibits may be funded by the Park District, others may need a fundraising effort.
- 3) **Will we be reusing some of the existing exhibits?** We anticipate that we will be reusing some of the exhibits. Some need updating, others could be used in a different way, and others are key historical artifacts.

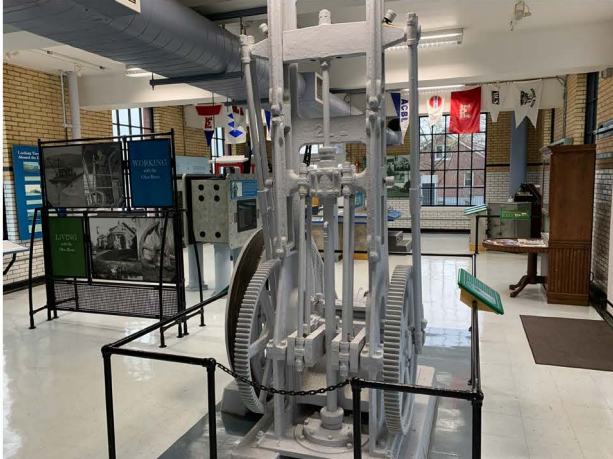

Below are photos of the interior of the visitor center and museum

First floor information desk

First Floor exhibit space

Second Floor historic water pump

Second floor display space

Second Floor wicket display

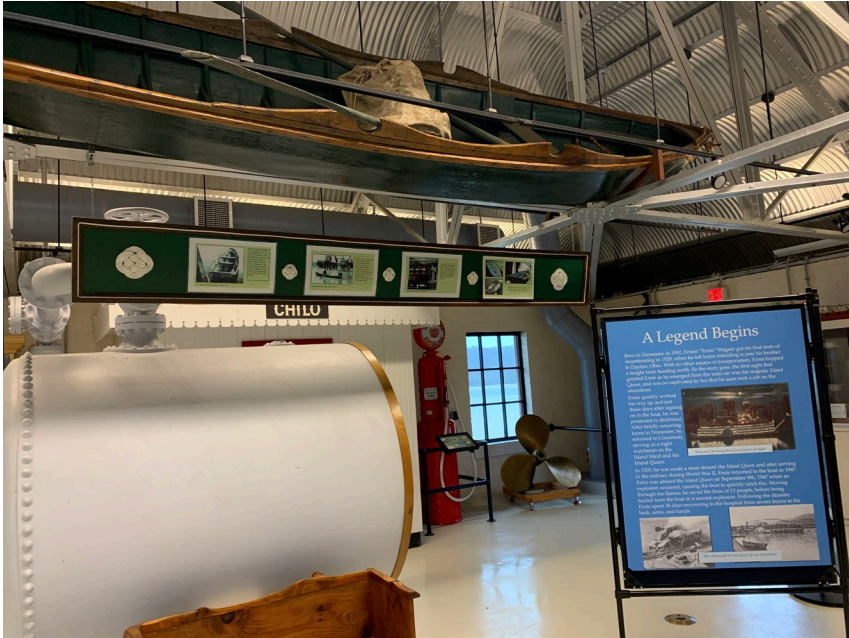

Second Floor lock display

Third Floor model display

Third Floor display space
